## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. Previous 112 rejections are withdrawn based on the applicant's amendments.
3. Claims 1-9, and 14-16 are allowed.
4. The prior art fails to teach or suggest the applicant's aqueous-aqueous emulsion.

Typically emulsions are either oil-water or water-oil emulsions. The applicant's claims describe both phases of the composition to be aqueous. Furthermore, the applicant's require specific polymers with specific molecular weights also not taught in the prior art. This combination of features was neither found nor rendered obvious by the prior art of record. As such these claims are found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
